

FISCAL NOTE

HB 3123 - SB 3246

March 11, 2006

SUMMARY OF BILL: Permits state employees with children enrolled in schools to take off up to one day a month from work to voluntarily participate at their children's schools.

ESTIMATED FISCAL IMPACT:

Other Fiscal Impact - Any increase in state expenditures is estimated to be not significant since state employees currently may take annual or compensatory leave upon department approval or approval of their immediate supervisor. This bill does not require employees to take time off nor does it require that any time taken off should be in the form of paid leave. It is assumed that employees would not take off work any more than they would have in absence of the bill. Funds are available in each department's budget to cover the use of voluntary annual and/or compensatory leave.

Assumptions:

- The time off from work provided in this bill is subject to department approval or approval of the employee's immediate supervisor.
- The time off is discretionary and there is no requirement that the leave be paid. Employees would use accrued annual or compensatory leave to participate at their children's schools.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink, appearing to read "James W. White".
